

MARSON COTTON PICKER SPINDLE GREASES

MARSON COTTON PICKER SPINDLE greases are very soft greases. These premium quality lithium greases are designed specifically for the lubrication of rotating spindles and spindle heads of mechanical cotton pickers. They provide excellent wear and corrosion protection, channeling resistance, dispensability, pumpability, and low temperature performance for medium speed operations.

MARSON COTTON PICKER SPINDLE NO. 00 exceeds the requirements of John Deere JDN-305 and JDN-360 for cotton picker spindle lubricants. These products may be used in John Deere, International Harvester, Case International and other grease lubricated cotton pickers. They are dyed a light, non-staining green for identification purposes.

TYPICAL CHARACTERISTICS

NLGI Grade	No. 00	No. 0
Product Code	39369	39370
Thickener: Lithium 12-hydroxy stearate	Yes	yes
Color	Light Green, Non-Staining	Light Green, Non-Staining
Texture	Smooth, Short Fiber	Smooth, Short Fiber
Penetration, Worked, 60X (ASTM D-217)	415	380
Dropping Point, °F (ASTM D-566)	N/A	320
Mineral Base Oil Viscosity		
cSt at 40°C (ASTM D-445)	22.3	22.0
cSt at 100°C (ASTM D-445)	4.09	4.08
SUS at 100°F	115	110
SUS at 210°F	40	40
Rust Prevention, Rating (ASTM D-1743)	Pass	Pass
Copper Corrosion, Rating (ASTM D-4048)	Pass	Pass
Usable Temperature Range, °F	-20 to 200	-20 to 200
