

# BRICK OIL

## (Light Duty Chain & Cutting Oil)

**BRICK OIL** is low-viscosity paraffinic mineral oil intended for non-critical general purpose lubrication such as bearings and gears operating under moderate loads and temperatures, machine tools, and electric motors. It has a high viscosity index and is designed for a wide variety of applications.

**BRICK OIL** may vary from batch to batch in color, density and viscosity.

### APPLICATIONS:

- Chains
- General purpose lubricating oil for non-critical applications
- Flushing oil
- Dust control oil
- Cutting oil
