

HEAVY DUTY BRAKE FLUID (DOT 3)

HEAVY DUTY BRAKE FLUID is a DOT-3 fluid recommended for all drum and disc type brake systems of automobiles and trucks. It is specially formulated to withstand heat as well as cold temperatures without causing brake failures.

HEAVY DUTY BRAKE FLUID will not boil off when hard braking causes extreme heat and remains equally efficient in subzero temperatures. It will not cause rubber to swell and will not corrode metal parts.

HEAVY DUTY BRAKE FLUID will mix perfectly with all approved brake fluids.

It conforms to the Federal Motor Vehicle Safety Standard No. 116, DOT #3, and SAE J1703 as well as various state requirements.

For use in cars, truck, and buses

Minimum wet boiling point - 284°F

TYPICAL CHARACTERISTICS

Product Code	13000
Viscosity, cSt @ -40°C @ 40°C @ 100°C	1500 max 5.4 1.5
pH	pass (7-11.5)
appearance	clear liquid
Reflux boiling point, °C (°F)	205 (401)
Corrosion test (6 metals)	pass
Effect on rubber seals	pass
Resistance to oxidation	pass
Water tolerance	pass
Evaporation at 100°C, wt loss %, max	80
