

## SHINGLE OIL (Wood Treatment)

**SHINGLE OIL** is highly refined oil, which may be used to treat wooden structures. This wood dressing extends the useful life of the wood. This oil is light in color and has good penetrating ability. It contains no biocide, pigments or preservatives or environmentally harmful ingredients.

**SHINGLE OIL** should be applied to new shake or shingle roofs or to older roofs that have been pressure washed to remove dirt, leaves, etc. This oil penetrates and is non-drying. It may be used on roofs, fences and other wood structures. Oil should be applied sparingly since it is absorbed into the wood. It may be applied by moping, spraying or brushing.

### TYPICAL CHARACTERISTICS

Product Code	17105
API Gravity (ASTM D-1298)	23.7
Specific gravity	0.910
Color	Yellow to Light Amber
Viscosity (ASTM D-445), cSt @ 40°C	20.7
Flash Point, °F (°C)	325 (163)
