

**PRODUCT
INFORMATION**

**OSYRIS 105-S
SOFT WAX FILM RUST PREVENTIVE**

DESCRIPTION

OSYRIS 105 is a premium quality, solvent-based rust preventive. It is designed to leave a thin oily film for positive indoor protection from rust on metal surfaces and precision parts. This product is non-staining, low in odor, water displacing and will not emulsify even in the presence of alkali. It can easily be applied by conventional brush, spray, or dip methods. The resulting film is slightly more protective than oil based rust preventives.

OSYRIS 105 is easily removed from parts with petroleum solvents or by vapor degreasing.

TYPICAL SPECIFICATIONS

Appearance	Dark Amber Liquid
Odor	Mild Petroleum Type
Color, ASTM D-1500	4.5
Specific Gravity @ 60/60 F	0.800
Density @ 60 F, lbs/gal	6.67
Film Type	Soft Wax
Indoor Storage, months	12

Revised 10/17/2005 ADD
